ABOUT ME

- 2.5+ years of experience in server side applications.
- Willing to learn new technologies.
- Design, implement and maintain code.

WORK EXPERIENCE

Mantis Technologies 12/2018 - Present
Koramangala Bangalore

I started work at Mantis Technologies in 2018 as a New Graduate hire, in the years following I worked in major deliveries.

Current I am working on “**GPS System**”. It’s a python based application which help to tracking bus system and calculate ETA.

I have also done “**SQL Server to MYSQL Server migration**”. With the help of my team I have done to changed whole DB infrastructure to MYSQL.

I have done effectively “**Coin Reward Point Program**”. It’s a strategy to entice more and more users to book bus tickets repeatedly in *Travelyaari.com* (Mantis Technologies). It’s a Coin Wallet which is design and developed in Spring boot(Micro service).

EDUCATION

- Graduation - 68.6%**
BE(CSE) from NRIITM, M.P.
2012-16
- SSC - 70.2%**
State board, M.P.
2010-12
- HSC - 74.8%**
State board, M.P.
2009-10

SKILLS

Databases

Statically Type Language

- Good understanding OOPS concepts.
- Spring boot(microservice)
- Mybaitis for data persistence.
- Maven as build tool.

Dynamically Type Language

- Python core knowledge
- Good in Django framework
- Good understanding in flask framework.
